Opal News

2026 – 27: No. 5; 9th October

Bikes and scooters have been a big hit this week! The children have loved being outside and making the most of the space to ride, race and practise their skills. It has been lovely to see them developing their balance, coordination and confidence as they whizz around with their friends. They have enjoyed taking turns, navigating around others and challenging themselves to try new things, showing great independence and resilience along the way.
